The incumbent will primarily play a pivotal role in the successful delivery and implementation of the day-to-day projects within the Regions for the Kenya Platform for Climate Governance. At the Regional level, s/he will lead evidence-based policy advocacy in close coordination with technical experts, lead the development and institutionalization of CSOs momentum in the region, conceptualize and coordinate the implementation of locally-led climate action initiatives in the Region, and represent the platform (KPCG) at the region’s forums.

The incumbent will also work closely with partners and strategic networks including County Governments to collectively influence pro-poor climate policies and practices in the Region, track the platform’s engagement efforts in the Region, and advice the National Coordinator on opportunities to strengthen engagements with stakeholders at the Region. He will also support the Young Climate Digital Activists to harness their expertise and experience to develop compelling, relevant, and timely interventions and contribute to the platform’s advocacy work.

A. DUTIES AND RESPONSIBILITIES

1. Policy, Advocacy, and Momentum Building

   a) Closely working with the Community Resource Person at the Region, support the establishment of grass-root CSOs momenta on climate governance in the Region;
b) Work with Counties in the Regions to track implementation of climate change policies and engagement of CSO in implementation and participation in the climate change committees; 
c) Support the established Regional/County/Grassroots CSO platforms in identifying, prioritizing, and firming up climate and environmental justice advocacy plans; 
d) Support the regional grassroots CSO platforms to ensure targeted advocacy through an intersectional approach across internal and external communications; 
e) Working with Young Digital Activists, oversee a data-driven (evidence-based) and inspiring communications content and an external engagement at the Regions climate action initiatives; and 
f) Manage a strategic partnership with Regions and county leads which would in turn help leverage the platform’s value add as a national CSO body.

2. Technical leadership, Capacity Building, and Learning

a) Provide thought leadership at the Regions programs and agenda influencing policy and campaigning initiatives; 
b) Provide specific technical expertise on the broad range of climate justice campaigns; 
c) Lead capacity development initiatives to deepen the influencing approaches across the region; and 
d) Support and share key learning through different methods and help to create an environment for innovation in the region. 
e) Share monthly reports with the coordinator

3. Representation

a) Lead external representation for the platform’s advocacy and policy goals; and 
b) Play a leading role in raising KPCG’s profile in the region through developing significant relationships with partners, allies, Government development partners, INGOs, and the media. 
c) Influence social media through regular posting and tagging of relevant conversations on climate justice conversations Nationally

B. REQUIRED COMPETENCIES

a) A degree in Environment, Climate Change, Natural Resources Management; 
b) Social scientist with a strong background in community mobilization, climate justice, momentum building, human rights, litigation and policy, and advocacy; 
c) 3 years of experience in working with climate change, environment organizations, or forums; 
d) An agile and strategic and critical thinker, with the ability of setting process, performance, and outcome goals; 
e) Excellent communication skills both verbal and written, ability to speak the native languages of the - region of Kenya will be an added advantage; 
f) Innovative and tech-savvy knows how to support projects from the start to the end with the use of technology; 
g) Strong in building teams;
h) Ability to embrace diversity;

i) Good negotiation and diplomatic skills;

j) Works well autonomously and in a team.
