### Title of the Project:

Strengthening the participation of civil society and local communities in the sustainable management of the environment and in the implementation of the national REDD + strategy in Togo

### Project Goal, Objectives, results and activities

**Goal:** Contribute to strengthening the participation of CSOs and CBOs in the implementation of the national REDD + strategy for better adaptation to climate change in Togo.

**Specific objectives:**
- Increase the capacity of 240 actors from CSOs, CBOs, Women and Youth Organization to become more involved in the sustainable management of forest resources and in the future implementation of the national REDD + strategy in Togo
- Inform, educate and sensitize community leaders, women, men and youth from 10 localities targeted for a better understanding of climate change and the REDD + process in Togo

**Results:**
- At least 1600 people (men, women and youth) from 15 localities are directly informed about climate change issues and their involvement in the implementation of the national REDD + strategy;
- More than 60% of the local populations in the Plateaux, Centrale, Kara and Savanes regions are able to give the causes and consequences of climate change thanks to radio programs and spot messages;
- National REDD+ and REDD+ Committees are informed about activities and key results of the project
- 240 civil society actors, community-based organizations (CBOs), women's and youth organizations in the Central Regions, Kara, Plateaux and Savannas better understand the national REDD + strategy and actively participate in its future implementation;
- A national platform of at least 30 CSOs committed to the protection of the environment is set up and supports the REDD + process;
- 15 localities have integrated environmental issues into their Village Action Plans (VAPs) and Cantonal Action Plans (CAPs) through the EPRACC tool;
- 150 members of fire committees (in 15 localities) have their capacity reinforced on fire-fighting techniques
- Targeted local communities understand the constraints of natural resource management and adopt new attitudes for the sustainable protection of their environment.

**The main activities:**
| Activity 1: | Organization of 02 working sessions with the National REDD + Coordination broadens the CSOs sitting on the different REDD + Committees |
| Activity 2: | Organization of 04 meetings of the Project Steering Committee |
| Activity 3: | Organization 02 Regional Training Workshops (Atakpamé, and Dapaong) of 70 actors from Civil Society Organizations (CSOs), Community Based Organizations (CBOs), and community leaders on issues related to climate change, their role and implication in the sustainable management of the environment in Togo and in the implementation of the national REDD + strategy in Togo. |
| Activity 4: | Organization of a national workshop for CSOs committed to environmental protection |
| Activity 5: | Organization of 04 regional training workshops (Sokodé, Kara, Atakpamé, and Dapaong) of 160 actors from women's and youth organizations on climate change issues, their role and involvement in the sustainable management of the environment in Togo and in the implementation of the national REDD + strategy in Togo. |
| Activity 6: | Sensitization of communities in 15 localities on forest resource management through the EPRACC tool |
| Activity 7: | Strengthening fire committees in 15 localities |
| Activity 8: | Organization of 10 radio broadcasts programs |
| Activity 9: | Production and dissemination of 05 audio spots in French and local languages |
| Activity 10: | Production of information media (T-shirts, caps, leaflets, booklets ...). |
| Activity 11: | Production of a newsletter Quarterly information. |
| Activity 12: | Project Monitoring and Evaluation |
